EDUCATION

New York University

New York, NY

Bachelor of Arts in Computer Science

Minors: Business Studies and Business of Entertainment, Media, and Technology

Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Operating Systems, Artificial Intelligence, Applied Internet Technologies, Data Management & Analysis, Linear Algebra, and Discrete Mathematics

WORK EXPERIENCE

Handshake AI

Remote

AI Trainer - Handshake MOVE Fellowship

July 2025-Present

- Developed and evaluated domain-specific prompts to assess the performance of large language models (LLMs) across specialized STEM domains, ensuring accuracy and reliability
- Analyzed LLM outputs for scientific accuracy, clarity, and depth in complex technical subfields, contributing to improvements in AI system performance and safety

Flite

New York, NY

Early Stage Engineer

August 2023– January 2024

- Enhanced sign-up form for new users leading to a **30% increase in conversion rates** by improving state and validation logic using **React** and **Tailwind**.
- **Supported platform growth from 20k to 300k monthly active users** by improving system stability and performance under increased transaction volume.
- Created an admin dashboard allowing leadership to track platform performance through real-time visibility into key business metrics like GMV, user growth, ticket volume, and revenue.

Green Street Power Partners

Stamford, CT

Software Engineer Intern

June 2023-August 2023

- **Reduced backend response latency by 15%**, by contributing to service refactors and performance improvements during a backend migration from Ruby on Rails to Node.js
- **Reduced yearly database maintenance costs by \$6000** by identifying redundant database fields and data inconsistencies in legacy systems.

PROJECTS

IMDB Sentiment Analysis (PyTorch, Pandas, Matplotlib, Gradio)

- Built and trained a transformer-based sentiment analysis model in PyTorch to classify 25K+ IMDB movie reviews, implementing custom attention layers, tokenization pipelines, and **achieving 77%+ test accuracy**.

Bills Budgeting (AWS Amplify, Lambda, DynamoDB, S3, Cognito, React.js, MantineUI)

- Built a full stack personal finance tracker with a serverless AWS stack to record income and expenses, upload files, and visualize data.

ACTIVITIES AND LEADERSHIP

NYU Varsity Indoor and Outdoor Track and Field

August 2021-May 2024

- Devoted 20 hours of training per week to lifting weights and perfecting throwing technique.

NYU Athletic Leadership Program

Jan 2022 – May 2024

- Founding member of a club dedicated to creating community within NYU athletics and instilling leadership skills.

CERTIFICATIONS

AWS Certified Cloud Practitioner

March 2025

- Critical knowledge of implementing best-practice cloud initiatives with 50+ AWS services

AWS ML & AI Scholars — AI Scientist Nanodegree

November 2025

- Gaining hands-on experience with Python, PyTorch, and developing neural networks

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Java, Python, SQL, HTML/CSS

Frameworks/ Libraries: React, Node, Express, PostgreSQL, MongoDB, Spring Boot, TailwindCSS, PyTorch

Tools: AWS, Git, Jira, Bitbucket, Eclipse, Jupyter Notebooks, IntelliJ IDEA
